I will make that suggestion to the DPS though my state senator and representative. I will also help my friend correct her voter registration.

I am also aware of the curbside voting since I have worked the elections for more than 20 years. This year we had problems with our machine and sent voters that required this to another polling place. We filed our complaint about this to the county. We had lots of problems in Harris county, but you know that.

Apparently your email contact works but it told me twice that it failed. This is what I got back:

Thank you for your inquiry.

We are sorry your friend experienced difficulties. We respectfully note that our office cannot direct DPS procedures. You would need to direct the request to DPS.

In the meantime, in terms of election procedures, we can advise you that the voter can associate a new number with the voter registration record to help facilitate ballot by mail. One of the ways to do this is to send in a voter registration application with updated information.

If the voter is not sure whether her driver license number or social security number are associated with the voter registration record, she may put both on a future application for ballot by mail.

Additionally, many voters who vote by mail like knowing about an alternative called curbside voting. A voter with a disability can vote curbside; the balloting materials are brought out to the car. We recommend calling ahead if the voter wishes to curbside vote. For example, during early voting, curbside voting is legally available at any branch. However, as a practical matter, some locations are better suited than others (roomier driveways and so on).

We hope this will be helpful to you.

a friend who is now handicapped and cannot drive got her photo ID at DPS. They did not give her her old drivers license number. They gave her a new number. This caused problems when she requested a mail in ballot. Please tell DPS to continue using the original drivers license number on the photo ID to avoid this problem. Thank you.

**Subject:** RE: Problem with voting by mail (EI Response)

Thank you for contacting the Elections Division of the Office of the Texas Secretary of State.

If your application for a ballot by mail was rejected because the required personal identification information on the application does not match the numbers in your voter registration record then the county must provide notice to you of the rejection and explain how to correct the defect by using the online Ballot by Mail Tracker, available at [www.votetexas.gov](http://www.votetexas.gov). If you need to update your voter registration record to add or required information numbers you can do so by submitting a new voter registration application to the registrar or by validating their personal identification numbers on [texas.gov](http://texas.gov).

We appreciate your detailed feedback on the issues you encountered. We are always looking for ways to improve the process and the experience, and detailed feedback from the voters is helpful in addressing those issues. Our office does not have the power to change the laws in effect in this state. If you wish to bring a legislative idea to the attention of the Legislature, you can find contact information for your state legislative representatives here: <https://wrm.capitol.texas.gov/home>

Again, thank you for contacting our office. If you have any additional questions or if we can be of further assistance, please contact our office at 1.800.252.8683 or email us at [Elections@sos.texas.gov](mailto:Elections@sos.texas.gov).

I have been a registered voter at my address since 1980. The last few years I have voted by mail because of disability and age. My current application for voting by mail has been rejected. The problem is my last 4 digits of my social

security number were entered into the voting registration data base incorrectly in 1980 by whomever entered the data. The Tarrant County Election office said the numbers were transposed. When I asked if I could take a picture of my Texas driver's license and social security card and email it to their office I was told I had to come into their office to correct the error. If I was able to go to their office I could vote in person.

Texas voting laws are penalizing people for mistakes made by the election staff members that entered the voting registration data. It is ridiculous that the technology that allows me to update my information to the IRS and the Social Security Administration electronically is not allowed by the state of Texas in regards to voting by mail. As a constituent I am being denied my right to vote by mail simply because of Texas' antiquated procedures. It is time for Texas to embrace technology and stop blocking voters.

Sincerely,

The purpose of this document is to provide information to election officials responsible for completing the Election Administration and Voting Survey (EAVS), a biennial survey of information on election administration and election policy. This document provides information on what data the EAVS collects, the process and timeline for data submissions, how the Election Assistance Commission (EAC) reports the results of the data, how updates to EAVS data sets are released to the public, and how the EAC makes changes to the survey questions.

## Introduction to the EAVS

Since 2004, the EAC has conducted the EAVS following each federal general election. The EAVS asks all 50 U.S. states,<sup>1</sup> the District of Columbia, and U.S. territories to provide data about the ways in which Americans vote and how elections are administered. The EAVS provides the most comprehensive source of state- and local-jurisdiction-level data about election administration in the United States. These data play a vital role in helping election officials, policymakers, and other election stakeholders identify trends, anticipate and respond to changing voter needs, and invest resources to improve election administration and the voter experience. EAVS data make it possible to examine the details of U.S. elections infrastructure and produce a generalizable understanding of core aspects of the election process and the management challenges faced by election officials. The survey provides policymakers and the public with critical information every two years about how federal elections are conducted and helps the EAC fulfill its congressionally mandated reporting requirements.

Collectively, the EAVS data collection effort consists of two separately administered surveys: the Policy Survey and the EAVS. The Policy Survey,<sup>2</sup> which is due by each federal general election, collects data on state election policies and procedures to provide context for the quantitative data

---

<sup>1</sup> In the interest of consistency, the term “states” in this document includes the District of Columbia and the U.S. territories.

<sup>2</sup> Before the 2018 election, the Policy Survey was known as the Statutory Overview.

included in each state's EAVS submission. The data collected in the Policy Survey includes information on:

- The state's voter registration and list maintenance policies;
- The state's policies on how voters may participate in elections, such as by mail, in-person voting prior to Election Day, vote centers, voting under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), and provisional voting;
- The state's policies and practices on election certifications, recounts, and audits, and on certification of election technology;
- The state's voter identification policies; and
- How criminal convictions affect voting rights in the state.

The EAVS survey, which is due 90 days after a federal general election,<sup>3</sup> collects data on:

- Voter registration, including the number of registered and eligible persons, the number of active and inactive registrants, the number of individuals who used same-day voter registration, the number of registration forms processed since the previous federal general election, the number of registration forms processed since the previous federal general election in total and by source, the number of list maintenance confirmation notices sent to voters since the previous federal general election, and the number of voters removed from registration rolls since the previous federal general election;
- UOCAVA voters, including the number of registered and eligible UOCAVA voters; the number of Federal Post Card Applications (FPCA) received, accepted, and rejected; the number of UOCAVA ballots transmitted, returned, counted, and rejected; and the number of Federal Write-in Absentee Ballots (FWAB) returned, counted, and rejected;
- Mail voting, including the number of mail ballots transmitted, the number of mail ballots transmitted to permanent mail voters, the number of mail ballots returned and rejected, the number of mail ballot drop boxes used and the number of ballots returned via drop box, and the number of mail ballots that were successfully cured;
- In-person voting and polling operations, including the number of precincts, the number of polling places for Election Day and early voting, the number of poll workers during Election Day and early voting, the age of poll workers and the number of new poll workers, and the ease of recruiting poll workers;

- Provisional ballots, including the number of provisional ballots submitted and their adjudication, the reasons for provisional ballots being submitted, and the number of provisional ballots rejected; and
- Voter participation and election technologies, including the number of persons who successfully cast in the election in total and by voting mode, the source of data on election participation, use of electronic and paper poll books, use of voting technologies, location of vote tally, and general comments.

## Background and Authority

The EAC collects EAVS and Policy Survey data to meet its obligations under federal law.

- ***Help America Vote Act (HAVA)***. HAVA (52 U.S.C. § 20922) requires the EAC to serve as a national clearinghouse and resource for the compilation of information and review of procedures with respect to the administration of federal elections. This includes conducting studies to promote the effective administration of federal elections under topical areas such as methods of voter registration, methods of conducting provisional voting, poll worker recruitment and training, and such other matters as the EAC determines are appropriate.
- ***National Voter Registration Act (NVRA)***. Under NVRA, the EAC is responsible for collecting information and reporting to the United States Congress on the impact of that statute on a biennial basis. The information that states are required to submit to the EAC for purposes of the NVRA report can be found under Title 11 of the Code of Federal Regulations. States that respond to EAVS questions concerning matters related to voter registration will meet their NVRA reporting requirements under 52 U.S.C. § 20508 and EAC regulations.
- ***Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)***. UOCAVA mandates that EAC create a standardized format for state reporting of UOCAVA voting information (52 U.S.C. § 20301). UOCAVA requires that “not later than 90 days after the date of each regularly scheduled general election for Federal office, each state and unit of local government which administered the election shall (through the state, in the case of a unit of local government) submit a report to the EAC (established under the Help America Vote Act of 2002) on the combined number of absentee ballots transmitted to absent uniformed services voters and overseas voters for the election and the combined number of such ballots which were returned by such voters and cast in the election, and shall make such a report available to the general public.” States that complete and submit the UOCAVA section of the survey to the EAC on time will fulfill their UOCAVA reporting requirement under 52 U.S.C. § 20302.

## Process and Timeline for State Data Submissions

The Policy Survey is completed at the state level and is submitted by the state's chief election officer<sup>4</sup> or their designee. While EAVS data is collected at the jurisdiction<sup>5</sup> level, the state is responsible for coordinating jurisdiction responses and providing a complete set of responses to the EAC. Each state's chief election officer is also responsible for certifying their state's final EAVS data submission as being as complete and accurate.

The state's chief election officer may or may not be the person who is responsible for managing their state's (and, where applicable, jurisdictions') response. Before each EAVS is administered, every state will designate a point of contact (POC) who will receive information and important documents relating to the survey and will manage the state's (and, where applicable, jurisdictions') response. At the state's discretion, the POC does not have to be the chief election official, and the state may designate multiple POCs. The EAC will periodically seek to interview state POCs in order to better understand their experiences completing the EAVS and to gather information on how the EAC can better support states in submitting their data. In the summer before the election for which the data are being sought, the EAC will request that each state's EAC Standards Board state designee provide the name and contact information for the state's POC(s). State POC(s) may be updated at any time while Policy Survey or EAVS data are being collected. To do so, a current POC or the state's chief election officer should contact the email address listed on the project website and provide the name and contact information (email address and phone number) for new POC(s).

The EAC intends to release the EAVS and Policy Survey questions at least 3 months before the election for which the data are being sought. The survey questions will be posted on the EAC website. The Policy Survey data for each state is due before the election for which the data are being sought. The due date for each state's EAVS data is the first business day in February following the

<sup>4</sup> As designated pursuant to 52 U.S.C. § 20302(b)(1).

<sup>5</sup> What constitutes a jurisdiction is defined by each state. Most states report EAVS data on the level of the county (or county equivalent, such as parishes or boroughs) and some states also report data for independent cities in addition to counties. Other states report data at the township level. Territories and federal districts typically each report as one jurisdiction.

election for which the data are being sought.<sup>6</sup> This deadline allows time for the EAC to review data submissions for completeness and accuracy. States will be provided with two opportunities to make corrections to their EAVS data and review how the data will be portrayed in the EAC's data analysis. The due date for the final EAVS data is the first business day in March following the election for which the data are being sought. The EAC then uses the data to provide a report to Congress no later than June 30 following the election for which the data are being sought.

Appendix A contains a list of anticipated dates for EAVS-related activities for the surveys that will be conducted between 2022 and 2032.

## Project Website, Survey Documentation, and Training Materials

To assist state POCs in providing data for the Policy Survey and EAVS, the EAC will maintain a distinct project website for these surveys. This project website will have resources and documentation relating to the project, including instructions on using the data collection templates, guidance on interpreting survey instructions and definitions, and reminders of survey deadlines. The website will also allow POCs to download survey files and upload files for the EAC to review.

Before the launch of the survey, the location of the project website and access credentials to the website will be provided to state POCs. The URL of the current project website is listed in Appendix B.

## Data Collection Templates

The EAC will provide state POCs with easily accessible templates to use for the submission of their Policy Survey and EAVS data. The Policy Survey data collection template will allow states to enter their data item by item. Two data collection templates will be provided for EAVS:

---

<sup>6</sup> This deadline is necessary, in part, due to the EAC's requirement under section 702 of HAVA that states submit their UOCAVA numbers to EAC within 90 days of the election (52 U.S.C. § 20302). Since the EAC collects the NVRA, UOCAVA, and other election-related data simultaneously using the same instrument, all data are due at the same time to eliminate confusion and duplicative efforts by state and local officials and EAC.

- A flat data format that will allow states to copy and paste large amounts of data, such as from a report generated from the state's election database. This format will have a column for each EAVS item and a row for each EAVS jurisdiction in the state.
- An item-by-item format that is primarily intended for jurisdictions that enter data themselves. The data from the item-by-item template will be automatically formatted to match the layout of the flat data file.

Both templates will include data validations that will assist states in providing accurate data. These validations will flag when subcategories do not sum to the correct totals, when responses are not compatible across the survey, and when required items do not have responses. The data collection templates will be made available to state POCs on the project website; if the state relies on jurisdictions to complete part or all of the EAVS, the state may distribute the data collection templates to local jurisdiction officials. All final state EAVS data submissions must be made through the project website in the flat data format.

## Technical Assistance

During the data collection periods for the Policy Survey and EAVS, states will have the benefit of technical assistance offered by the EAC. This technical assistance includes, but is not limited to, guidance and support related to understanding the survey questions and their definitions and instructions, entering data into the data collection templates, uploading data to the project website, and troubleshooting technical issues. The EAC will also issue reminders of due dates throughout the data collection period.

Technical assistance will be provided by phone and email. State POCs may request technical assistance by contacting the email address and phone number that will be listed on the project website.

## Data Review Process

The EAC will work with states to ensure that the data included in the EAVS Comprehensive Report and made publicly available are complete and accurate. Both Policy Survey and EAVS data submissions will undergo an intensive review process. The EAC will review Policy Survey data as states submit it and will contact state POC(s) with questions and clarifications. If an update to a state's Policy Survey data is necessary (for instance, because of a policy change or a court ruling

before an election or because of a misinterpretation of a survey question) after the state submits its data and before the EAVS data lock date, the state's POC(s) should contact the email address listed on the project website with information about what data updates are needed.

The EAC will also review the first EAVS data submission that states provide on the first business day in February following the election for which the data are being sought. Data submissions will be reviewed to ensure that:

- Subcategories sum to the correct totals;
- Responses are compatible across the survey;
- All required items have a response;
- The state's EAVS responses align with the state's Policy Survey responses; and
- The state's EAVS responses are consistent with data trends the state has reported in EAVS data from previous elections.

Within 10 business days of the initial data submission, the state will receive a report summarizing the results of this data review and calling attention to items in need of further review.

The state will then be able to review the EAC's report, correct errors, and provide further context to its EAVS data in a second data submission. The EAC will conduct another review of this second submission and will generate the analysis that will appear in the appendix tables of the report to Congress. States will have a final opportunity to review this analysis, provide corrections to their data, and submit explanatory notes that will be published with the data analysis.

States that do not provide their initial data submissions by the first business day in February will have a shortened time frame to reconcile their data following their receipt of the results of EAC's data review. All final EAVS data is due on the first business day in March following the election for which the data are being sought.

## Data Finalization and Certification

After the state submits its final data on the first business day in March following the election for which the data are being sought, the EAC will ask the state's chief election officer to certify in writing that the information being presented to the EAC is true and accurate to the best of their knowledge and that their state's EAVS submission is complete.

After the final data due date, the EAC will lock the EAVS data and begin data reconciliation and analysis for the purpose of writing the EAVS Comprehensive Report. At this point, no additional data will be accepted from states for inclusion into the database or the EAVS Comprehensive Report. The EAC is unable to alter its timelines for data submission or publication of its reports for any reason. If a state fails to submit its final data to the EAC before the first business day in March, the EAC may use the state's earlier submission in its data analysis.

## Publication of EAVS Comprehensive Report and Public Data Set

No later than June 30 in the year following the election for which the data are being sought, the EAC will issue a written report of election administration and other election activities to the United States Congress. This report, referred to as the EAVS Comprehensive Report, includes the following:

- An overview of election administration and election activities, including the total number of votes cast, turnout (in total and by mode), registration rates, the number of precincts and poll workers, provisional balloting, and use of election technology.
- A report on voter registration activities in the previous two-year election cycle, including the total number of registered voters, the modes by which registrations were submitted, the types of registrations submitted, usage of same-day voter registration, list maintenance removal or confirmation notices sent to voters, and the number of voters removed from registration lists.<sup>7</sup>
- A report on data related to voting by uniformed and overseas citizens in the previous two-year election cycle, including the total number of registered and eligible UOCAVA voters; the number of FPCAs received, accepted, and rejected; the total number of UOCAVA absentee ballots transmitted, returned, cast, and counted; the number of UOCAVA absentee ballots

---

<sup>7</sup> The Help America Vote Act (HAVA) of 2002 amended the NVRA to require EAC to issue a report on the impact of the NVRA no later than June 30 of each odd-numbered year ((52 U.S.C. § 20508, as amended by P.L. 107-252 § 802(b)). For the 2004 election this NVRA report was issued as part of the Election Day Survey Report. Since the 2006 election, the EAC has issued this report as part of the EAVS Comprehensive Report.

not counted and the reason for rejection; and the number of FWABs returned and cast by UOCAVA voters.<sup>8</sup>

- A report on the Policy Survey, including state's policies on voter registration and list maintenance; mail voting; in-person voting prior to Election Day; vote centers; UOCAVA voting; provisional voting; election technology, election certification, recounts, and audits; voter identification; and how criminal convictions affect voter registration.
- A report on the methodology of the Policy Survey and EAVS, including an overview of the timeline, how the data were collected and analyzed, and technical assistance and other support provided to states.

The EAVS Comprehensive Report must be formally adopted by a vote of the EAC Commissioners before publication. The EAVS Comprehensive Report and the EAVS and Policy Survey data sets will be made publicly available on the EAC's website.

In addition to the EAVS Comprehensive Report, the EAC will use EAVS and Policy Survey data to release other research products, including reports, memos, summaries, visualizations, congressional testimony, and presentations.

## Post-Reporting Matters

After the EAVS Comprehensive Report has been written and adopted by the EAC, no changes to that report may be made. However, if the EAC is notified by a state of an error or omission in the state's data set, the agency will issue updated EAVS and Policy Survey data sets on its website with an errata note of changes that have been made to the newly-issued data sets. Updated data sets will be issued on a quarterly basis.

The chief election officer of a state may request an update to the state's EAVS or Policy Survey data in writing by contacting the EAC Director of Research at the email address listed in Appendix B, with the subject line "EAVS Correction." The written request should include a detailed description of the update requested, including the election year which needs to be corrected, the item(s) that need to

---

<sup>8</sup> The EAC is charged with issuing periodic studies on voting, including by members of the uniformed services and overseas voters (52 U.S.C. § 20981). For the 2004 election, these data were collected in the Military and Overseas Absentee Ballot Survey. Since the 2006 election, the EAC has issued this report as part of the EAVS Comprehensive Report.

be updated, the jurisdiction(s) affected, and the reason the update is necessary. Upon receipt of the request, the EAC will work with the state to ensure the data update is processed correctly and that the state's data is accurately depicted in the public data sets. The state's chief election officer will have the opportunity to review the data set and documentation before it is made public. In addition, the EAC will ask the state's chief election officer to sign a new certification form that reflects the data updates.

If the EAC Director of Research determines that the data update is necessary as a result of the EAC's action or failure to act, the data update may be expedited and the EAC may issue updated data sets outside of its regular quarterly updates. The state's chief election officer may appeal the EAC Research Director's determination to the EAC Executive Director.

## Survey Question Changes

Before the release of each survey, the EAC will review the Policy Survey and EAVS questions to ensure they reflect current election practices. The EAC may consider eliminating questions that are no longer relevant, revising questions to better reflect current election practices, or adding new questions. In making changes to the survey questions, the EAC will be mindful of the response burden for state and local election officials and will prioritize questions that can successfully be answered across all states.

In addition, the EAC is statutorily required to submit both sets of survey questions to the Office of Management and Budget (OMB) for review before the survey questions are finalized. This process takes approximately six months to complete. During the review process, the EAC will publish the draft survey questions and estimated paperwork burden for the proposed information collection in the Federal Register and will solicit public comments on the proposed information collection. Election officials and the public are encouraged to comment on the survey questions and paperwork burden of the proposed data collection; the EAC carefully reviews all public comments received through this process. Once the EAC has acquired approval for the data collection through OMB, it will release the final versions of the survey questions on the project website and on its agency website.

## How EAVS Questions Have Changed

The first version of the survey that eventually became EAVS was fielded after the 2004 federal general election. That survey, called the Election Day Survey, collected information on voter registration, election results, voting equipment, poll workers, and voting jurisdictions. In 2006, the survey was rebranded as EAVS and incorporated a variety of policy-related questions in addition to data points. Beginning in 2008, the EAC added a section on UOCAVA voting, and in 2013 EAC entered into a memorandum of understanding (MOU) with the Department of Defense's (DOD) Federal Voting Assistance Program (FVAP) to establish a joint survey effort enabling both the EAC and FVAP to meet their core reporting requirements while reducing the overall burden on election officials.

Since 2008, EAVS has consisted of six sections that have covered similar questions, with minor changes from year to year. The EAC has made EAVS data for each federal general election publicly available on their agency's website.

In 2010, EAVS began collecting data on state election laws and procedures to assist the EAC in better understanding the quantitative data relating to each federal general election. This was first done in the form of the Statutory Overview, which had states submit their statutory language to answer a series of open-ended policy questions and mark what had changed from the previous election. Since 2018, the Statutory Overview has been revised into the Policy Survey, which asks a series of closed-ended questions to better categorize states according to their election practices. States' responses to the Statutory Overview and the Policy Survey are publicly available on the EAC's website.

## Effective Date

This policy becomes effective on July 20, 2022 and supersedes all previous versions.

## Appendix A: Anticipated Dates for EAVS Activities, 2022–2032

This table lists anticipated dates for EAVS activities through the 2032 EAVS. These dates may be subject to change; any changes will be communicated to EAVS POCs by the EAC.

#### Overview Table 2 Calculation Notes:

**Total Mail Voters** uses the sum of questions F1d and F1g.

**% Turnout by Mail** uses the sum of questions F1d and F1g divided by question F1a.

**Total Mailed Ballots Transmitted** uses question C1a.

**Total Mailed Ballots Returned** uses question C1b.

**% Mailed Ballots Returned** uses question C1b divided by question C1a.

**Mailed Ballots Counted, Total** uses question C3a.

**Mailed Ballots Counted, % of Returned** uses question C3a divided by question C1b.

**Mailed Ballots Rejected, Total** uses question C4a.

**Mailed Ballots Rejected, % of Returned** uses question C4a divided by question C1b.

#### Overview Table 2 Data Notes:

##### General Notes:

- Casewise deletion at the state level was used in calculating national percentages. The percentage calculations at the national level (U.S. Total) only used data from those states that provided data for the numerator and denominator of the calculation.
- Because each percentage was calculated independently, the percentages of mailed ballots counted and rejected may not sum to 100% for some states or at the national level.
- The Total Mail Voters column reflects the number of voters who cast a ballot by mail that was counted. It does not include voters who cast a UOCAVA ballot or FWAB.

- The Total Mailed Ballots Transmitted column captures the total number of mailed ballots that states reported transmitting, regardless of whether the ballot was returned or not. The number of ballots transmitted typically exceeds the number of ballots returned because some voters who transmitted a mailed ballot choose to vote by another mode or to not vote at all. Total Mailed Ballots Returned typically exceeds Total Mail Voters because some returned mailed ballots are rejected for not meeting state requirements. Mailed Ballots Counted may not match Total Mail Voters because states may have different methodologies for calculating these numbers.
- The Total Mailed Ballots Returned column includes both counted and rejected ballots that were returned to election offices.

**[1]** Alabama reported mail and early in-person voting data together as the Total Mail Voters (300,684). Both are considered absentee voting; thus, the data for transmission method are commingled and cannot be reported separately.

**[2]** Data on rejected mailed ballots for Georgia include rejected ballots entered by counties into the state voter registration system as of February 2021, which does not necessarily include all ballots rejected by counties.

**[3]** Butte County and Valley County in Idaho responded “Data not available” to the number of mailed ballots received (C1b) but reported data for the number of mailed ballots counted (C3a). Madison County and Valley County in Idaho reported more mailed ballots counted than mailed ballots received. Because of these responses, the total number of mailed ballots counted exceeds the number of mailed ballots received at the state level for Idaho, and the percentage of returned ballots that were counted exceeds 100%.

**[4]** Kansas did not provide any survey comments to explain why the data reported in the Total Mail Voters column exceeds that of the Total Mailed Ballots Transmitted column, nor why the percentage of mailed ballots counted and rejected does not sum to 100%. Some jurisdictions that reported data on Total Mail Voters did not provide data for Total Mailed Ballots Transmitted.

**[5]** The Northern Mariana Islands did not provide any survey comments to explain why the data reported in the Total Mail Voters column exceeds that of the Total Mailed Ballots Transmitted column, nor why the percentages of mailed ballots counted and rejected does not sum to 100%.

**[6]** Puerto Rico reported “data not available” in question C4. In addition, this territory noted in a survey comment that the Total Mail Voters column may include ballots for non-federal elections and that its response in the Total Mail Voters and % Turnout by Mail columns includes “voters who [cast] their vote early but in their home, not in a polling location.”

**[7]** Local election officials in Wisconsin were still recording voter participation method at the time data was provided for this report; therefore, the Total Mail Voters data were incomplete. These data are currently available from the state.

- (8) **By-Mail Ballots Returned, Rejected as Pct. of Returned** uses question C4a divided by question C1b.
- (9) **By-Mail Ballots Returned, Other Total** uses question C1b minus the sum of questions C3a and C4a.
- (10) **By-Mail Ballots Returned by Voters, Other as Pct. of Returned** uses question C1b minus the sum of questions C3a and C4a, all divided by question C1b.
- (11) **In-person Early Votes, Total** uses question F1f.
- (12) **In-Person Early Votes as Pct. of Total Ballots Cast** uses question F1f divided by question F1a.

#### Overview Table 2 Data Notes

##### General Notes:

- The percentage calculations at the national level (U.S. Total) only use data from those states that provided data for the numerator and denominator of the calculation
- Negative numbers in the “Other” column indicate that the sum of counted and rejected by-mail ballots account for more than the total number of returned by-mail ballots reported by the state.

##### [1] Responded “Data not available” for In-person early voting.

- Alabama reported: “Alabama has in person absentee voting that qualifies as ‘early voting’ but we do not have separate in person and mail absentee numbers”
- Montana reported: “F1f: Montana treats early voting as absentee and doesn’t track use of early voting in the voter registration system.”
- New Hampshire reported: “‘-99’ does apply to in-person absentee voting, which NH has at the clerks’ office, and not at the polling place”

This is the Deposition of Keith</p> <p>6 Ingram, in the Matter of La Union Del Pueblo Entero v.</p> <p>7 Abbott, U.S. District Court for the Western District of</p> <p>8 Texas, Docket No. 5:21-cv-844.</p> <p>9 My name is Dan Freeman. I am counsel for</p> <p>10 the United States in this matter. With me is Richard</p> <p>11 Dellheim whom you have met before who is also counsel</p> <p>12 for the United States.</p> <p>13 I am going to ask everyone to turn off</p> <p>14 their cell phones or put them on mute, if they can,</p> <p>15 before we get started.</p> <p>16 So Mr. Ingram, I know you're a frequent</p> <p>17 flyer in depositions so, you know, I do need to go</p> <p>18 through a few ground rules but we will keep it quick.</p> <p>19 A deposition proceeds by question and</p> <p>20 answer. Your answers will be recorded by the court</p> <p>21 reporter so it is important for you to articulate rather</p> <p>22 than to gesture. Do you understand?</p> <p>23 A. I do.</p> <p>24 Q. The purpose of the deposition is to obtain your</p> <p>25 testimony regarding your opinions with respect to this</p>

<p>Page 9</p> <p>1 awhile, you might realize your prior answer was not 2 entirely accurate. If you realize that, will you let me 3 know so we can correct the record?</p> <p>4 <b>A. Certainly.</b></p> <p>5 Q. Great. Sometimes while you're answering, you 6 may think of a document that would help you remember or 7 would help you answer more accurately.</p> <p>8 I do have some documents here. Although, 9 I just broke my own rule by gesturing, but I do have a 10 pile of documents here. And if you -- if there are 11 documents that might be helpful, let me know, we might 12 have it here, we might be able to pull it down. And if 13 your attorney would do us the courtesy of giving us 14 printer access, we might even be able to printout a 15 copy.</p> <p>16 Mandatory question. Are you on any 17 medication or drugs of any kind that might make it 18 difficult for you to understand and answer questions 19 today?</p> <p>20 <b>A. I am not.</b></p> <p>21 Q. Very good. Is there any other reason you can 22 think of why you will not be able to answer my questions 23 fully and accurately?</p> <p>24 <b>A. No, sir.</b></p> <p>25 Q. Okay. And then the last thing. I do need to</p>	<p>Page 11</p> <p>1 car wash because that's what I did during high school, 2 and I was a political science major, so that's what I 3 was qualified to do. So I worked at a car wash, then I 4 was a swamper on a waste oil hauling rig, and then I 5 work at the Texas Employment Commission for nine months 6 as an employer -- Employer Interviewer II. And then my 7 wife finished college and I went to law school.</p> <p>8 Q. Got it.</p> <p>9 <b>A. So that's -- those are those jobs. And then, 10 since law school, I have worked at Atlas and Hall in the 11 Valley for two-and-a-half years. Maroney, Crowley 12 Bankston, Richardson and Hull all the way -- well, 13 different permutations because we joined Locke Purnell 14 and then Locke Purnell joined Lidell Sapp. And anyway, 15 some of us who were from Maroney Crowley eventually, in 16 2000, came out and started our own firm, and then we did 17 until probably '06.</b></p> <p>18 And then I went to Arkansas, worked for 19 Kutak Rock out of Omaha. I worked in their Little Rock 20 office for about a year and then came back here and hung 21 a shingle for about a year, and then went to work for 22 Governor Perry helping him appoint judges for about four 23 years. And then I have been in this job since January 24 5th of 2012.</p> <p>25 Q. Okay. Do you have any experience in politics</p>

No, sir.</b></p> <p>8 Q. Didn't think so.</p> <p>9 Mr. Ingram, what is your educational 10 background?</p> <p>11 <b>A. I went to elementary school in Odessa, Texas, 12 and then went to Algeria in North Africa for grades five 13 through nine and then back to Odessa but to a Christian 14 school. I will ask you during a break about 21 Algeria because I am curious, but it is not necessary 22 for the deposition.</p> <p>23 What jobs have you held since finishing 24 college?</p> <p>25 <b>A. And did you have any experience related to 8 election administration prior to taking your current 9 job?</p> <p>10 <b>A. No. I had -- and in the course of my 11 employment with the Governor, worked with pieces of the 12 Election Code, particularly, Chapter 202, 201, and 13 Chapter 145, so I was familiar with some parts of the 14 Election Code but hadn't actually worked in elections 15 until this job.</b></p> <p>16 Q. Those three chapters that you mentioned, what 17 did those cover generally?</p> <p>18 <b>A. They cover vacancies and appointments to fill a 19 vacancy, and they cover vacancies and nomination and how 20 you -- the track for filling a vacancy and nomination. 21 And you know I have since learned that those are some of 22 the most difficult chapters in the Election Code, but 23 those are the ones that I knew in the Governor's office 24 because they were important to my job there.</b></p> <p>25 Q. Are they specific to judges or more generally?</p>

<p>1 Q. Would that include advisories?</p> <p>2 MS. HUNKER: Objection, form.</p> <p>3 <b>A. Not all of them. You know, some advisories are</b></p> <p>4 <b>activities in the vicinity of the polling place we put</b></p> <p>5 <b>out in every election. They are not controversial.</b></p> <p>6 <b>They are not going to be a problem. But advisories,</b></p> <p>7 <b>especially with regard to the our office's position or</b></p> <p>8 <b>interpretation on new law would definitely be run by the</b></p> <p>9 <b>Executive Office.</b></p> <p>10 Q. Okay. Beyond regulations and advisories, are</p> <p>11 there any other documents with respect to the</p> <p>12 administration of elections that must be presented to</p> <p>13 the Secretary or the Executive Office before they go</p> <p>14 out?</p> <p>15 <b>A. We do mass emails, most of them we cc, you</b></p> <p>16 <b>know, the Executive Office or bcc the Executive Office,</b></p> <p>17 <b>but it is not likely that we give them advance warning.</b></p> <p>18 <b>But, you know, occasionally there is one that is going</b></p> <p>19 <b>to answer a big question that we want to make sure that</b></p> <p>20 <b>they know what direction we are going before it goes</b></p> <p>21 <b>out.</b></p> <p>22 Q. Is there a common email address for the</p> <p>23 Executive Office?</p> <p>24 <b>A. No.</b></p> <p>25 Q. So when you say, you cc or bcc the Executive</p>	<p>1 <b>input into, and we are currently considering the rule</b></p> <p>2 <b>change where Exec does have input.</b></p> <p>3 Q. And what is the current rule change you're</p> <p>4 considering?</p> <p>5 <b>A. It's a TAC Rule 81.36, I believe.</b></p> <p>6 Q. And what is the subject of 81.36?</p> <p>7 <b>A. It's the activities of the early voting ballot</b></p> <p>8 <b>board in counting of early voting ballots.</b></p> <p>9 Q. And what is the nature of the change you're</p> <p>10 considering?</p> <p>11 <b>A. To make it conform to the statute -- our rule</b></p> <p>12 <b>was put out before there was a law, and now then there</b></p> <p>13 <b>is 87.0241 in the code so we are trying to make our rule</b></p> <p>14 <b>match up with the code.</b></p> <p>15 Q. And when was the rulemaking that failed back in</p> <p>16 2016?</p> <p>17 <b>A. That was to get rid of the real-time audit log</b></p> <p>18 <b>printer on central count computers.</b></p> <p>19 Q. And why did it fail?</p> <p>20 <b>A. Because there were protests, death threats,</b></p> <p>21 <b>info wars.</b></p> <p>22 Q. I am sorry to hear that, sir. Can any written</p> <p>23 materials go out of your office over the Secretary's</p> <p>24 objection?</p> <p>25 MS. HUNKER: Objection, form.</p>
<p>1 Office, you are cc-ing or bcc Deputy Scott, Deputy</p> <p>2 Secretary --</p> <p>3 (Reporter interruption for clarification.)</p> <p>4 Q. Are you cc'ing or bcc-ing Secretary Scott,</p> <p>5 Deputy Secretary Esparza, Mr. Bitter, and I believe you</p> <p>6 said Sam?</p> <p>7 <b>A. That's right.</b></p> <p>8 Q. And I apologize. I am actually from the</p> <p>9 Midwest but no one ever believes me in terms of my</p> <p>10 speed.</p> <p>11 In your experience and not addressing any</p> <p>12 particular decision, how frequently does the Executive</p> <p>13 Office provide input in crafting of a regulation?</p> <p>14 MS. HUNKER: Objection, form.</p> <p>15 <b>A. Well, we don't make many rule changes.</b></p> <p>16 Q. What share of the rule changes receive</p> <p>17 affirmative input as opposed to review for a potential</p> <p>18 veto from the Executive Office?</p> <p>19 <b>A. Like I said, we don't make many rule changes.</b></p> <p>20 Q. Across your 10 years as the election</p> <p>21 administrator for Texas, has it happened a few times?</p> <p>22 <b>A. We tried in '16, but we didn't successfully</b></p> <p>23 <b>change the rule, and we did have input from Exec for</b></p> <p>24 <b>that change. I can't imagine a</b></p> <p>2 <b>circumstance where the Secretary would object and it</b></p> <p>3 <b>would go anyway.</b></p> <p>4 Q. Is this principle established in any statute,</p> <p>5 regulation or other written document?</p> <p>6 <b>A. No. It is just that we are at will employees.</b></p> <p>7 Q. Does the Secretary of State have the authority</p> <p>8 to waive any Election Code provision?</p> <p>9 <b>A. No, of course not.</b></p> <p>10 Q. Does the Secretary of State have the authority</p> <p>11 to modify it?</p> <p>12 <b>A. I take it back. There are some statutory</b></p> <p>13 <b>provisions that have built-in waivers, built-in</b></p> <p>14 <b>permission for the Secretary to waive or modify, but if</b></p> <p>15 <b>it is not the in the statute as a specific provision</b></p> <p>16 <b>then, yeah, we can't waive state law.</b></p> <p>17 Q. Thank you for that clarification.</p> <p>18 Does the Secretary of State have the</p> <p>19 authority to modify any Election Code provision?</p> <p>20 <b>A. No.</b></p> <p>21 MS. HUNKER: Objection, form.</p> <p>22 Q. Beyond his communication role that you already</p> <p>23 described, what is the personal role of the office</p> <p>24 holder of the Office Secretary of State with respect to</p> <p>25 the administration of elections?</p>

That's not what this is talking about.</b></p> <p>7 MR. FREEMAN: I will object to that as a</p> <p>8 nonresponsive.</p> <p>9 Q. (By Mr. Freeman) I will ask again. Are you</p> <p>10 aware of any instances in which a voter posed a question</p> <p>11 to an assister and the assister answered the question</p> <p>12 posed by the voter and that constituted coercion or</p> <p>13 intimidation?</p> <p>14 MS. HUNKER: Objection, form.</p> <p>15 <b>A. That's not what this is talking about, and so,</b></p> <p>16 <b>of course, not, that's not the issue.</b></p> <p>17 Q. Okay. Are you aware of any instances in which</p> <p>18 an individual intended or attempted to coerce a voter</p> <p>19 during the assistants process since SB 1 went into</p> <p>20 effect and was somehow thwarted by the revised oath?</p> <p>21 MS. HUNKER: Objection, form.</p> <p>22 <b>A. That, I don't know. I haven't heard anything</b></p> <p>23 <b>about that.</b></p> <p>24 MR. The county election officials, in</b></p> <p>17 <b>particular, the presiding judge at the polling place is</b></p> <p>18 <b>going to have to make that decision. The point of the number is</b></p> <p>8 <b>to say, this is the voter who is already in your list as</b></p> <p>9 <b>an eligible voter. I don't know. I know that when I went to Arkansas, I had a driver's license number. And when I came back from Arkansas I was able to reestablish my driver's license with that same number.</b></p> <p>Q. Do you know if DPS provides the same number to an individual who has a driver's license and then gets a personal identification card if they are no longer able to drive?</p> <p><b>A. I don't know. I don't know what the DPS policy is on that, but they are not supposed to be able to have two numbers at the same time.</b></p> <p>Q. Would it surprise you if I were to represent to you that approximately one in seven registered voters in Texas have, at some point in their life, been issued more than one DPS ID number?</p>	<p>driver's license number does not match TEAM and the social security number is not in TEAM is the incorrect number, the incorrect Texas driver's license number evidence of fraud or impersonation?</p> <p><b>A. It is not.</b></p> <p>MS. HUNKER: Objection, form.</p> <p>Q. Why not?</p> <p><b>A. Because it is just the wrong number.</b></p> <p>Q. In that case where the social security number is not in TEAM, would that voter's absentee ballot by mail application be rejected?</p> <p><b>A. Yes.</b></p> <p>MS. HUNKER: Objection, form.</p> <p>Q. What is the value for election administration in Texas of rejecting that ABBM?</p> <p>MS. HUNKER: Objection, form. Vague.</p> <p><b>A. Well, the voter hasn't identified themselves as the voter.</b></p> <p>Q. Has the voter provided their name and address under penalty of perjury?</p> <p>MS. HUNKER: Objection, form.</p> <p><b>A. They have filled out a form with their name and address, yes.</b></p> <p>Q. And prior to SB 1, would you have said that that same voter did identify themselves as the voter?</p>

<p>Page 117</p> <p>1 particular statute, it is the more recent statute, it 2 gets the precedents. 3 Q. And the decision regarding which statute would 4 take precedents, this is in -- where is this written 5 down? 6 <b>A. I don't know.</b> 7 MS. HUNKER: Objection, form. 8 <b>A. We have done mass emails. We have done 9 advisories. We have done Webex's. We have talked about 10 it. We have talked about it enough where the counties 11 were not pleased with our decision, I can tell you that.</b> 12 Q. Okay. If a voter submits two numbers, a social 13 security number and a driver's license number, one of 14 them matches and so the ABBM is accepted, is the other 15 number listed on the ABBM used to update the voter's 16 file? 17 <b>A. No.</b> 18 Q. Under what circumstances would a driver's 19 license number or social security number that does not 20 match TEAM and is submitted on an ABBM ever be used to 21 update TEAM under 84.014? 22 <b>A. It wouldn't, not by itself.</b> 23 Q. So in effect driver's license number and social 24 security number have been struck from 81.014; is that 25 right?</p>	<p>Page 119</p> <p>1 application form and send it in with a number, or they 2 can go on to Texas.gov and login and that will supply 3 the missing numbers. They could do a corrective action 4 form. There is several different corrective action 5 forms for different problems, but they could complete 6 one of those and bring it to their early voting clerk. 7 Q. Any other ways besides those? 8 <b>A. Not that I can recall right now.</b> 9 Q. Okay. 10 <b>A. For FPCA voters, they can complete another 11 signature sheet and email it.</b> 12 Q. Anything else? 13 <b>A. That's it.</b> 14 Q. Okay. If we could mark this as Exhibit 8. 15 (Exhibit o. 8 marked.) 16 <b>A. If they didn't put a number at all, they could 17 login to the ballot by mail tracker and certify that 18 those numbers are theirs and then they will get a 19 ballot.</b> 20 Q. So what -- 21 <b>A. And if they put a wrong number, they could 22 login to the ballot tracker and certify that the number 23 is really theirs and get a ballot.</b> 24 Q. What is this document? 25 <b>A. This is the login screen for the ballot by mail</b></p>
<p>Page 118</p> <p>1 MS. HUNKER: Objection, form. 2 <b>A. Well, maybe. I mean, it could be that if their 3 DL is empty on TEAM they might use it for that. I 4 wouldn't be telling my registrars to do that, but they 5 might could -- they might decide to do that. You see, 6 they are the ones that have to do this work not us.</b> 7 Q. But the recommendation of your office would be 8 to assist? 9 <b>A. They would not do that. But if it was an old 10 value, I don't think they ever would if it was 11 different, right. If someone put a number on the 12 application for ballot by mail that was different than 13 what they have got in the TEAM record, I think they 14 would give the TEAM record precedents. But if it was 15 empty, they might update the TEAM record.</b> 16 Q. Okay. 17 <b>A. But again, that's because they are the ones in 18 charge of this work.</b> 19 Q. Understood. Turning then to the ABBM tracker 20 and a cure provision. If a voter submits an ABBM that 21 does not meet the SB 1 identification document number 22 requirements, how can that voter cure the deficiency? 23 <b>A. Well, they can submit a new application for 24 ballot by mail with the number on it, or a different 25 number on it. They can complete a voter registration</b></p>	<p>Page 120</p> <p>1 tracker. 2 Q. Am I correct that this is the only way to 3 correct an ABBM online? 4 MS. HUNKER: Objection, form. 5 <b>A. Well --</b> 6 MS. HUNKER: Misstates testimony. 7 <b>A. No.</b> 8 Q. How else can a voter correct and -- 9 <b>A. So if they don't have the number in their voter 10 registration record --</b> 11 Q. Uh-huh. 12 <b>A. -- they can fix that by going to Texas.gov 13 which is not the ballot by mail tracker.</b> 14 Q. What fields are required to access the ballot 15 tracker? 16 <b>A. The ones with asterisks by them.</b> 17 Q. Does that include social security number and 18 driver's license number? 19 <b>A. It does. Last four of social.</b> 20 Q. Is this required by statute or by your policy? 21 <b>A. Statute.</b> 22 Q. And do these fields need to match what's on 23 TEAM? 24 <b>A. They do.</b> 25 Q. And so if a voter doesn't have both, an SSN-4</p>

<p>1 their old driver's license whose number is on TEAM, is 2 there any way for a voter to successfully apply for a 3 ballot by mail? 4 <b>A. I'm sure.</b> 5 MS. HUNKER: Objection, form. 6 <b>A. Of course.</b> 7 MS. HUNKER: Compound. 8 Q. How is that? 9 <b>A. They can login to Texas.gov and supply the 10 number -- well, not if it is there -- the -- it is only 11 known values that would be supplied. They would have to 12 do a new voter registration application and submit it 13 with their ABBM.</b> 14 Q. Okay. But if they submit it after the close of 15 registration, which comes before the deadline for ABBM, 16 in that window is there any way for them to do it? 17 <b>A. Sure, of course.</b> 18 Q. How? 19 <b>A. They submit an application. All it is is an 20 update. This is not a new voter registration with a 21 30-day effective period. This is auto -- instant, 22 automatic.</b> 23 Q. So it is your understanding that a voter 24 registration application may be submitted after the 25 close of registration so long as it is an update rather</p>	Page 125	<p>1 <b>A. It does. If the Ballot Board or the early 2 voting clerk sent the carrier envelope back to the voter 3 then they can refill the carrier envelope and mail it 4 back in, they just got to get it there by 7:00 p.m. on 5 election day.</b> 6 Q. Okay. And does the ballot tracker have the 7 same requirements for login regardless of whether you're 8 correcting an ABBM or a carrier envelope? 9 <b>A. It does.</b> 10 Q. Do you know how many ballot carrier envelopes 11 were mailed back to voters during the March primary 12 related to SB 1 defects? 13 <b>A. I don't know.</b> 14 Q. Do you know how many ballot carrier envelopes 15 mailed back to voters were successfully cured and 16 returned on time to be counted in the March 1 primary? 17 <b>A. I don't know. Those voters could also have -- 18 they have the option of canceling their mail ballot and 19 turning it in at a polling place and voting in-person, 20 so I am sure a number of them did that.</b> 21 Q. Do you know how many carrier envelopes were 22 held by signature verification committees or early 23 voting ballot boards for SB 1 defects and voters were 24 simply notified of their need to cure? 25 MS. HUNKER: Objection, form.</p>	Page 127
<p>1 than a new registration? 2 <b>A. Right.</b> 3 Q. Okay. 4 <b>A. Because then, otherwise, they wouldn't be in 5 the system at all getting mail ballots.</b> 6 Q. Got it. That was an honest question. 7 <b>A. Okay.</b> 8 Q. Sometimes I am learning things. 9 If a voter submits a carrier envelope that 10 does not meet SB 1 identification document number 11 requirements, how can that voter cure the deficiency, 12 what are the different ways? 13 <b>A. Same as the application for the ballot by mail, 14 they can -- they can come in and do a corrective action 15 form in-person.</b> 16 Q. Uh-huh. 17 <b>A. Or they can log on to the ballot by mail 18 tracker and fix missing numbers that way. If it's 19 because they supplied a number that's not in their 20 record then they can also cure that with a voter 21 registration application card, or they can do it on the 22 corrective action form. And of course, FPCA voters can 23 issue a sheet with a new number.</b> 24 Q. And the corrective action form, does that need 25 to be submitted in-person?</p>	Page 126	<p>1 <b>A. I don't know. But if they do it that way then 2 they have got until six days after the election to do 3 the cure.</b> 4 Q. Do you know how many voters successfully cured 5 in-person a carrier envelope defect related to SB 1? 6 <b>A. I don't.</b> 7 Q. Can voters who qualify to vote by mail, by 8 reason of absence from the county during the entire 9 voting period cure in-person if they are also going to 10 be out of the county for the six days following the 11 election? 12 MS. HUNKER: Objection, form. 13 <b>A. They might can, depends on where they are out 14 of county.</b> 15 Q. But if they are not going to be in the county, 16 is there any way to cure in-person if you are not in the 17 county? 18 MS. HUNKER: Objection, form. 19 <b>A. You can't cure in-person if you are not there.</b> 20 Q. Can voters who are in jail cure in-person? 21 MS. HUNKER: Objection, form. 22 <b>A. Not unless they can get out.</b> 23 Q. Can all voters who qualify to vote by mail by 24 reason of sickness or disability cure in-person? 25 MS. HUNKER: Objection, form.</p>	Page 128
